How to use 如何使用

% of Grey hair 灰白发程度	Recommendation 建议
Less than 少于10%	5CB
10 - 30%	5CB + 4V = 2 : 1
30 - 50%	5CB + 4V = 1 : 1
More than 多于50%	4V only or 5CB + More 4V
Regardless of percentage of grey hair, 无论在任何程度的灰白发,	Freely use 5N. It will cover grey hair lighter than other brand's 5N 随意的使用5N。它覆盖灰白发比起其他品牌的5N会较明亮。

How to use 如何使用

1. 混合和应用

以 **1比1**混合色素和氧化剂。

从白发面积或新生长的头发开始涂抹至发尾。

使用梳子均匀的将混合物涂抹于头发上。

1. Mixture and application

Mix the color cream and the oxidizing agent in ratio of 1 : 1.

Begin the application from the grey hair area or newly grown hair and spread the rest mixture through out the rest of hair.

Comb the hair well with the coloring comb to apply the mixture evenly.

2. 操作时间

第一次染色，在室温(20°C~25°C)下放置**20~30**分钟。

重新染色(或修饰新生头发)，涂抹于新生发区和放置**25**分钟。根据变色的程度，在有色的区域涂抹并放置**5~10**分钟。最后的**5**分钟，使用梳子梳理全部头发，以防止头发上留下印记。

2. Development time

For the first time application, leave on for 20~30 minutes at the room temperature (20 °C ~ 25°C).

For re-coloring (or touch up for newly grown hair), apply on the virgin area and leave on for 20 ~ 25 minutes. Apply on colored area and leave for 5 ~ 10 minutes depending the level of discoloration. When the time is 5 minutes left, comb all of the hair to prevent marks on the hair.

3. 最后工序

使用少量的温水和搭配轻柔的按摩以乳化颜色。使用大量的温水彻底冲洗干净。

进行平常的护发程序和造型。

完成。

3. Finishing

Pour a small quantity of warm water on the hair and emulsify the color with a gentle massage. Rinse off with plenty of warm water thoroughly.

Finish with a conditioner or treatment and style as usual.
