- 7. *How to do a hair treatment with Vibrato 225***

# 1. Longer plates and heaters

- Longer plates for rapid finish
- World's First 80mm long ceramic heater
  - Better evenness in temperature on the heat plates

Vibrato 225	Vs	Other
93mm	Heat Plates	Less than 90mm
8cm	Ceramic Heaters	7cm

## 2. Vibration

- World's first hair treatment vibrating flat iron (8,000 times/min)
  - Helps penetration and absorption of treatment products
  - Better straightening with gloss ,effortless slide and gentle grip

## 3. Temperature setting for hair treatment

- Hair treatment : 55 ~ 60°C
- Styling and Heat Perm : 110 °C ~ 200 C °

## 4. Safety

- A special Code Cap prevents hair going into flat iron and an electricity disconnection by hairs.
- Automatic shut-off after 1 hour when no use.
- Heat resistant cap

## 5. Warranty Service

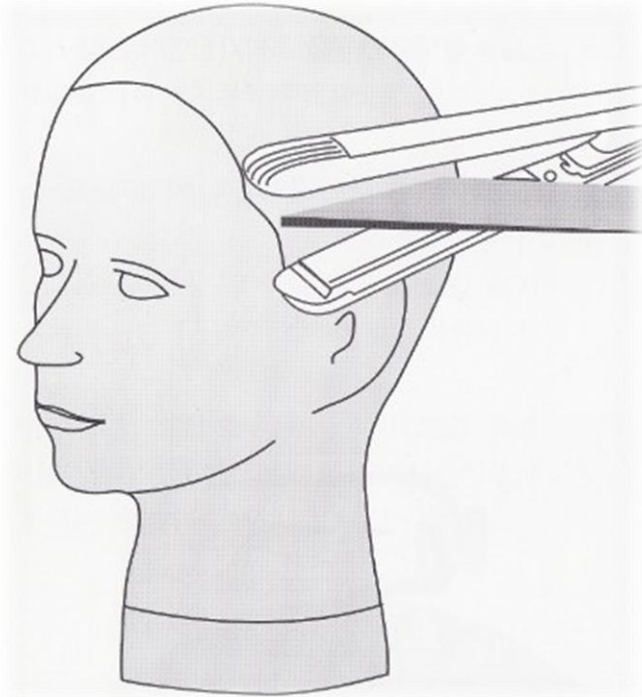

- 1 year warranty service
- Terms and Conditions apply

## 6. Silicon Cover

→ Silicon cover minimizes damages to the heat plates caused by hair treatment products.

## 7. How to do a hair treatment with Vibrato 225

1. Pre –Shampoo
2. Towel dry and leave moisture about 20 ~ 30%
3. Apply the treatment
4. Arrange the hair by combing lightly
